UTAH ENERGY STATISTICAL ABSTRACT IS NOW AVAILABLE

The Utah Energy Office has released the 2003 Utah Energy Statistical Abstract with data through 2002. The Utah Energy Statistical Abstract contains detailed data on energy reserves, production, distribution, consumption, and prices in Utah and the United States. In addition to chapters on coal, crude oil and petroleum products, natural gas, and electricity, the 2003 Utah Energy Statistical Abstract also includes a newly enhanced chapter on renewable energy sources such as wind, solar, and biomass. The document also includes an extensive glossary of energy terms, energy conversion factors, and weather data.

For more information on the 2003 Utah Energy Statistical Abstract, please contact Michael Vanden Berg at (801) 538-5419, the Energy Hotline at 1-800-662-3633, or michaelvandenber@utah.gov. The Utah Energy Statistical Abstract is available in print format from the Utah Energy Office or may be viewed online at <http://www.energy.utah.gov/edis.htm#StatisticalAbstract> in spreadsheet and Adobe Portable Document Format (PDF) files.
